SOIL CONSERVATION

CALLS FOR DEFINITE LONG-TIME PLANNING

REVISED PLAN

- Proper Land Use for Each Acre
- Crop Rotations with Legumes
- Contour Tillage—Strip Cropping—Terracing
- Trees and Shrubs for Badly Eroded Areas
- Small Gullies Sloped and Seeded
- Grass Waterways in Natural Draws

These practices will conserve soil

Close-Growing Crops Strain Soil From Run-Off

Contour Farming Holds Water on Slopes

This Draw Produces Hay, Not Gullies
